DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David Dutcher on 6/15/05.

The application has been amended as follows:

- Cancel claims 72-85.

Allowable Subject Matter

Claims 10-17, 54-71 are allowed.

The following is an examiner's statement of reasons for allowance: Prior art of record fails to teach nor suggest "removing at least a portion of the generally nonconductive material to form a gap between neighboring conductive couplers" in combination with the remaining elements of claim 10. Independent claims 10 and 16, both contain the allowable subject matter. Dependent claims 11-17 and 54-71 act only to further narrow the allowable subject matter contained in claims 10 and 16 and are therefore also deemed to be allowable over prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
